**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After using unsatisfactory internet providers for a while I came upon an excellent one. This one provides me with excellent internet service and a land line phone for little cost. This company is also building fiber networks to better able serve its customers. It is in the forefront in technical advancement.

I am also a victim of huge companies including ATT and Verizon, where service is minimum and cost is high.

I have been made aware that these large companies are lobbying to do away with a critical means by which my provider and others are able to serve residential customers such as me and my wife. Please do not let this happen! The big guys are short on tech advancement and customer service while cost is high. Do not let them get away with this!

Ed Micheli
